We will be glad to hear your suggestions! October 23, 2020 version 2.3.4 First shutdown, most people have said it is difficult to get coins without spending real money, but these statements are false. It's very untrue. I'm level 14 and I didn't spend money on this game and I easily have money. I recently had 14,000 coins. Secondly, of course, this game is not completely 5 stars, but why give 1 star based on this reason? Heavy! The gameplay is amazing and doesn't get used to it often. Also, everyone complains about ads, although this is the way they make money. Jeez, do you understand business? All these exaggerated reviews are terrible. I also read a review that the match is unfair because people play at the beginner level. That's not true, at least for me it's not. When I was at level 6, I was paired with 5-8, which is very similar to level 6, to be honest. And even now that I'm at level 14, there are some times when I'm paired with level 18. Still, we have mostly the same things. So, they obviously match their opponents with what elements you have, not the level. This game is amazing and these other opinions are kind of exaggerated, no offense. Great gameplay and the idea of another game. This game is not just about coins you can get dollars for leveling, which means that when you hit level 25 you can get one of the best boards. All you need is coins for tricks. WIN TOURNIRS, it really isn't that hard. You can get a massive XP from some of the tournaments and it's from a guy who hasn't spent money yet has a ghost board and Christ air. The price of rocket air is high, but the coins for this can be acquired from pro battle, which gives you massive coins that frankly you just need to know the tricks combinations, now even when you buy gold, which you don't get even that much anyway. You can get as 5 dollars worth of coins from 1 pro fight stop complaining about a great game. This game is very fun and everything, but as someone else said it's so hard to get money and the only way to get it is by playing someone good or bad, paying for it or watching advertising. Also, something I really do not like is that for beginners matches people of very high levels love join it and I feel it's not fair to actual beginners who just started and they want have an equal chance of winning as who they go against, but if there is a level 4 beginner and the person they face is level 18 how it is fair. I also do not like how you have to pay for practice, because since it is difficult to get money, you will just waste waste exercises and what if someone does not even have enough money to practice, then what will they do? It's a very fun game and I recommend it to others, but I still feel that a lot of things can be changed or fixed. But overall it's a good game. I would also like to say that when you play against someone on the screen is very bug, so you really can not see what they actually do and just catch a few grains . I hope you can read this and correct the mistakes that a lot of people say you have in your game.
